Detailed description

The EXIT Aksent Sand table XL is a unique sand & play table manufactured in extra large dimensions. Children can enjoy playing and building sand castles in the table. Its dimensions make it easy to place in your garden or on your terrace. The top is removable so the table can be used for building sand castles and, once the top is put back, it can be used nicely for drawing, building or doing arts & crafts. The root mat that comes with the table keeps the sand in the table. A great advantage of the sand table XL is that the cover keeps the sand clean and gives the object a neat appearance.

The EXIT Aksent sand table XL stands on legs, giving it the following advantages:

- You can play standing up, maintaining an active and proper posture.
- Standing around the table allows many children to play at the same time.
- It's less accessible for pets, such as cats.
- It's easy to sweep around the table.

As an additional accessory, you can purchase a set of EXIT Gardening Tools (52.90.01.00)

The EXIT Aksent Sand Table XL is manufactured from sustainably produced wood in a modern design and in tranquil grey and natural colours; just as nice for your garden!

Characteristics of the wood:

- North European fir
- Sustainably produced (FSC Mix Credit)
